**Before start let's remember the quantifiers**  
 Antes de comenzar recordemos los cuantificadores

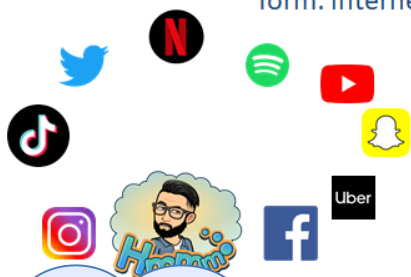

**First, we must remember the countable and Uncountable nouns**

**Countable nouns**

- ✓ Things that can be counted: app, file, site
- ✓ They have plural form: apps, files, sites

**Uncountable nouns**

- ✓ Things that can not be counted: internet, wi-fi, GPS
- ✓ They **do not** have plural form: internet, wi-fi, GPS

Tenemos 2 tipos de sustantivos, los contables (se pueden contar y tienen forma plural) e incontables (no se pueden contar y no tienen forma plural)

Usamos los *quantifiers* para hablar de cantidad. En el cuadro puedes ver cuándo vas a usar cada uno de los *quantifiers*

**Now, we have to remember the quantifiers**

**We use the quantifiers *much, many, a lot of, etc.* to talk about quantities, amounts and degree. We can use them with a noun (countable or uncountable)**

Quantifier	Countable	Uncountable	+	-	?
Much		x	x	x	x
Many	x		x	x	X
Some	x	x	x		X
Any	x	x		x	x
A few	x		x		x
A little		x	x		x

# A lot of / all

	We use <b>a lot of</b> in positive. <b>A lot of</b> may be used with countable and Uncountable nouns and means a large amount or number	Examples
A lot of		I watch <b>a lot of</b> videos in my smartphone
All	We use <b>all</b> with plural countable and Uncountable nouns. We use <b>all</b> to talk about every person or thing in the world, or in the group you are talking about	My tablet is a learning tool that is very useful for <b>all</b> my classes

A lot of la usaremos con cantidades grandes. All la usaremos con la cantidad total de algo.

Ambas se pueden usar con sustantivos contables e incontables

I love it because it has a lot of memory and I can download many songs and listen to much music **all** day!
